Zahirudeen Premji

EXPERIENCE

Founder, Director, Manager Engineer in multiple companies.

EDUCATION

EE Masters Program(NC) - F.I.T Florida - 1980. BSE - USF, Florida 1974. Training in neural nets - UCLA, Optics - R.I.T. SolidWorks, FEA, EMA, Xcode, Swift, SwiftUI

SKILLS

Many. Some I'm actually good at.

Developed many Program and Project Managers. I hold <u>PMI PMP</u> and <u>PE - Ret (FL)</u>.

I'm creative in multiple ares. I like to and work well with people individually and leading teams. With engineering, sales and marketing teams, have successfully assisted at customers with OEM sales.

As company founder, worked with international OEMs and a software partner to market, sell, install and maintain products.

Currently create IOS apps, <u>GitHub</u>. Multi-lingual.

AWARDS

9 patents. Best Manager - StorageTek Documation. High Performance achievement - Nikon Precision, "Who I'd like to run the business" - NPI employees, IBM Fast Track program.

BACKGROUND

To teach and help with knowledge transfer to others for them to succeed in industry is a worthwhile endeavor.

With multi-disciplinary international teams, projects with international teams, created very successful shipping products. Personally led RnD, at different time scales.

Significant experience in remote work and "telecommuting" at LSI, IBM, NPI, STK. Recognized at LSI, IBM, NPI as a good manager and team leader. Many instances of working with individuals and teams, bringing products to market. Creating ideas and making them products is something worth doing.

As founder of Red Hill Dezignz, I created a drop in replacement storage virtualization product for wafer steppers - with no changes to product SW or HW. Customers immediately removed the limitations of storage and lack of networking they were previously experiencing. Shipped, installed over 110 units at fabs of TI, Intel, Inmos, NEC, Matsushita. Acquired partner and IP. Self financed, followed by an initial round with VC financing.

Vice-chair, IEEE Denver LMAG
